1. Introduction

1.1 What is QuizBoard?

QuizBoard is an innovative educational gamification platform designed for university students. It transforms traditional studying into an interactive, competitive, and engaging experience by combining:

- **Active Recall** – scientifically proven to enhance memory retention

- **Blind Gamble Mechanics** – adding excitement and unpredictability
- **Social Competition** – connecting students across majors
- **Space Theme** – creating an immersive cosmic adventure

1.2 The Core Philosophy

"Learning should be an adventure, not a chore."

The app operates on three core principles:

1. **Learn by Doing** – Answering questions actively strengthens neural pathways
2. **Learn from Mistakes** – Every wrong answer is a learning opportunity
3. **Learn Together** – Competition and social connection drive motivation

1.3 Who Is This For?

- **University Students** across all majors (Computer Science, Business, Economics, Electrical Engineering, Robotics, Mechanical Engineering)
- **Study Groups** looking for a fun way to review material
- **Educators** wanting to gamify course content
- **Anyone** who wants to make learning more engaging

2. Getting Started

2.1 Accessing the App

QuizBoard is a **web-based application** that runs in your browser. Simply open the `index.html` file in any modern browser (Chrome, Edge, Firefox, Safari).

System Requirements:

- Any device with a web browser (desktop, laptop, tablet, smartphone)
- Internet connection (only required for first load; after that, the app runs offline)
- Modern browser with JavaScript enabled

Recommended Browsers: Google Chrome (v90+), Microsoft Edge (v90+), Mozilla Firefox (v88+), Safari (v14+)

2.2 Creating Your Account

1. **Open the App** – Double-click the `index.html` file.

2. **Sign Up** – Click the “*Sign Up*” link, fill in your **Full Name**, **Email / Username**, **Password**, and select your **Major** from the dropdown. Then click “🚀 **Sign Up**”.
3. **Login** – Enter your **Email** and **Password**, then click “🔑 **Login**”.
4. **Success** – You’ll be redirected to the **Dashboard**. Your data is automatically saved in your browser’s **Local Storage**.

💡 **Tip:** Your account data is stored locally on your device. If you clear your browser data, your account will be deleted. Use the same device and browser to keep your progress.

2.3 Major Options

Major	Emoji	Description
Computer Science	💻	Programming, algorithms, software development
Business	📊	Management, marketing, finance, operations
Economics	📈	Microeconomics, macroeconomics, econometrics
Electrical Engineering	⚡	Circuits, electronics, power systems
Robotics	🤖	Automation, control systems, AI
Mechanical Engineering	🔧	Thermodynamics, mechanics, design

Important: Your major determines the question pool for your games. You can change your major at any time in the **Profile** section.

3. Dashboard & Profile

3.1 Dashboard Overview

- **Profile Card** – shows your avatar, name, major, and total RP.
- **Statistics** – Games, Best Streak, and Finishes.
- **Quick Action Buttons** – 🧑‍🎮 Online Multiplayer , ⚡ Solo Sprint , 🏁 Solo Marathon .
- **Rival Notification** – shows your current rival’s name, major, and total RP.

3.2 Profile Page

- **Avatar Customization** – tap the large emoji or click “ *Change Avatar*” to cycle through space-themed emojis.
- **Profile Information** – name (fixed), major (editable dropdown), total RP, games played, best streak, finishes.
- **Changing Your Major** – select a new major from the dropdown; updates instantly and affects future question pools.
- **Friends Section** – view, add, or remove friends.
- **Logout** – sign out of your account.

4. Game Modes

Mode	Players	Tiles	Timer	Purpose
Solo Sprint	1	15	3 min	Quick study burst
Solo Marathon	1	30	15 min	Deep study session
Online Multiplayer	2-4	50	20 min	Competitive group study

4.1 Solo Sprint

Duration: 3 minutes • **Board:** 15 tiles

Best for: Quick review sessions, warming up, or when you have limited time.

Strategy: Focus on speed and accuracy; every second counts!

4.2 Solo Marathon

Duration: 15 minutes • **Board:** 30 tiles

Best for: Deep, comprehensive review sessions.

Strategy: Pace yourself; maintain consistency over the long haul.

4.3 Online Multiplayer

Duration: 20 minutes • **Board:** 50 tiles • **Players:** 2-4 (turn-based)

How to Play:

1. From Dashboard, click “ **Online Multiplayer**”.
2. Choose “ **Create Room**” (as host) or “ **Join Room**”.
3. If hosting, share the 6-digit **Room Code** with friends. If joining, enter the code.
4. All players must be in the room and show “ Ready”. The host clicks “ **Start Game**”.

 **Tip:** The host must start the game. Players who join must have accounts in the system.

5. The Board & Special Tiles

The board is a **linear track** displayed in a **5-column grid**. Your pawn starts at Tile 1 and moves forward when you answer correctly.

Tile Types

- **Normal Tiles** – standard tiles with no special effects.
-  **Gold Tile** – land here and jump **+3 tiles** forward.
-  **Swamp Tile** – land here, your next turn is **slowed** (-2 steps).
-  **Mystery Tile** – random effect: +10 RP, +2 steps, -10 seconds, or gain a Shield.
-  **Finish Tile** – reach this tile to **win** the game.

Tile Distribution

Mode	Total Tiles	Gold	Swamp	Mystery	Finish
Sprint	15	2	2	2	1
Marathon	30	2	2	2	1
Multiplayer	50	3	3	3	1

Note: Tile positions are **randomized** every game – no two games are exactly the same!

6. Core Gameplay – The Blind Gamble

6.1 Game Flow

1. **Start Game** – choose your mode and begin
2. **Your Turn** – the active player's turn
3. **Pick a Card** – tap the face-down card
4. **Blind Gamble** – you don't know the difficulty (Easy/Medium/Hard)
5. **Answer** – select your answer from 4 options

6. **Result** – correct or wrong?
7. **Movement** – dice roll determines steps forward (or backward)
8. **Next Player** – turn passes to the next player (in multiplayer)

6.2 The Blind Gamble Mechanic

When you tap the card, you **cannot see** the difficulty level before choosing. This creates excitement, trains meta-cognition, and ensures fairness.

- **Easy** – 1 die (1-6 steps), +10 RP
- **Medium** – 2 dice (2-12 steps), +15 RP, push nearest opponent back 2 tiles (multiplayer)
- **Hard** – 3 dice (3-18 steps), +20 RP, extra +1 step *or* teleport to leader (solo)

6.3 Answering Questions

Each question has **4 options** (A, B, C, D). Click the option you believe is correct. The app immediately shows green (correct) or red (wrong) feedback.

6.4 Dice Rolling & Movement Animation

- **Dice Roll** – number of dice depends on difficulty; special effects (Combo Streak, Loaded Dice, Swamp) modify the roll.
- **Movement Animation** – your pawn moves **one tile at a time** with a click sound per step (~280ms per tile).
- **Special Effects** – Gold, Swamp, Mystery, and Finish tiles have distinct visual animations.

7. Advanced Mechanics

7.1 Combo Nekat (Reckless Streak)

Answer **3 questions correctly in a row** without failing. Reward: **Super Roll** (2 dice ×2) + **+25 bonus RP**. If you answer incorrectly at any point, your streak resets to 0.

7.2 Wager System (Double or Nothing)

When you draw a **Hard** card, you can choose to **Wager** (Double or Nothing). If correct: double RP and double dice steps. If wrong: standard penalty (no extra punishment).

7.3 Medium Card Power (Multiplayer Only)

Answering a Medium card correctly pushes the **nearest opponent ahead** back by 2 tiles.

7.4 Hard Card Power (Solo Only)

Answering a Hard card correctly in solo mode teleports you to the **leader's tile** (catching up to your Rival Ghost).

8. Items & Shop

You earn **RP (Rank Points)** by playing games. Spend RP in the **Shop** to buy strategic items.

Item	Price	Effect	Use
 Loaded Dice	30 RP	Guarantees next dice roll ≥ 4	Single use
 Shield	25 RP	Negates one wrong-answer penalty	Single use
 Spyglass	20 RP	Reveals all card difficulties before you pick	Single use

Inventory Management: Access your purchased items via the “ **Bag**” button. Items stack and can be used one at a time during gameplay.

9. Social Features

Friends System

- **Add Friend:** In Profile, enter a friend's exact name and click “**Add**”.
- **Remove Friend:** Click the “**X**” button next to their name.

Online Multiplayer (Room Code)

- **Create Room:** Host gets a 6-digit code to share.
- **Join Room:** Enter the code to join.
- **Lobby:** Shows all players and their Ready status. Host starts the game.

10. Leaderboards & Rival System

Major League

Ranks players **within their major** based on total RP. Top 3 displayed with 🏆, 🥈, 🥉.

Hall of Fame

Players with a streak of **10 or more** are permanently listed, ranked by highest streak.

Rival System

- **Set Rival:** Click any player's name in the Major League.
- **Rival Ghost:** During Solo games, a translucent ghost 👻 appears on the board representing your rival's best performance.
- **Rival Notification:** Shown on the Dashboard with your rival's name, major, and RP.

11. Learning Tools

Review Mistakes Section

After every game, scroll down to see a list of **all questions you answered incorrectly**, along with the correct answers. This is crucial for learning from errors and identifying weak areas.

Active Recall Methodology

The app is built on the **Testing Effect** – retrieving information from memory strengthens neural pathways. The blind gamble creates a “desirable difficulty” that enhances learning.

Question Database

Each major has its own question pool with Easy, Medium, and Hard categories. Questions are randomly selected each game.

12. Audio & Visual Experience

Sound Effects

- **Click** – short, sharp “tick” (button presses)
- **Correct** – ascending three-note chime (C-E-G)

- **Wrong** – descending two-note buzz (C-G)
- **Move** – soft, rhythmic “click” (pawn step)

Music: Lo-fi space track, toggle on/off with the  button in the header.

Visual Animations

- **Card Flip** – 3D rotation (~0.5s)
- **Dice Roll** – spinning animation (~1s)
- **Pawn Movement** – step-by-step with glow effect
- **Tile Effects** – gold flash, purple swirl, mystery explosion, confetti finish

Space Theme

Dark cosmic background with neon blue/purple accents, gold highlights, and space-themed emojis.

13. FAQ & Troubleshooting

Q: How do I reset my data?

A: Use the console (`localStorage.removeItem('gambleRecall')`), clear site data in browser settings, or add a reset button to the UI.

Q: I lost my account data. What happened?

A: Data is stored locally. If you cleared cache, used a different browser, or used private mode, data is lost. Always use the same device and browser.

Q: Can I play offline?

A: Yes. After the first load, the app works completely offline.

Q: How do I change my major?

A: Go to Profile → click the major dropdown → select your new major.

Q: Why am I getting questions from a different major?

A: Your major determines the question pool. Change it in Profile if needed.

Q: Can I play with friends in different majors?

A: Yes. In Online Multiplayer, each player answers questions from their own major.

Q: What is RP and how do I earn it?

A: RP (Rank Points) is the in-game currency. Earn it by answering correctly (+10/15/20 RP), combo streaks (+25), mystery tile rewards (+10), and finishing games.

Q: What happens when time runs out?

A: The game ends immediately. The player with the highest RP or farthest tile position wins.

Q: Can I use items in multiplayer?

A: Yes, items work in all modes.

Q: How do I set a rival?

A: Go to Leaderboard → click a player’s name in Major League → confirm “Set as Rival”.

Troubleshooting

- **App won’t load:** Check internet (first load only), clear cache, try another browser, enable JavaScript.
- **Sound not working:** Unmute device, click the  button, allow audio autoplay.
- **Game freezes:** Refresh the page, clear cache, close other tabs.
- **Questions too easy/hard:** Difficulty is random; that’s the Blind Gamble.
- **Multiplayer room issues:** Ensure all players use the same version, double-check the room code (case-sensitive), host must start the game.

14. Quick Reference Cards

Game Modes

Mode	Tiles	Time	Players
Solo Sprint	15	3 min	1
Solo Marathon	30	15 min	1
Online Multiplayer	50	20 min	2-4

Difficulty Rewards

Level	Dice	RP	Special
Easy	1	10	–
Medium	2	15	Push opponent (MP)
Hard	3	20	Extra step / Teleport

Items

Item	Price	Effect
------	-------	--------

Loaded Dice	30 RP	Next roll ≥ 4
Shield	25 RP	Negate one wrong penalty
Spyglass	20 RP	Reveal all card levels

Special Tiles

Tile	Effect
Gold 🌟	Jump +3 tiles
Swamp 🌀	Next turn -2 steps
Mystery ?	Random effect
Finish 🏁	Win the game

Combo Streak

Streak	Reward
3	Super Roll + 25 RP

Keyboard Shortcuts (Desktop)

Shortcut	Action
Enter	Confirm action / Submit
Space	Flip card / Roll dice
1, 2, 3	Select answer options
M	Toggle music
Esc	Exit current screen
